In February, Congress passed and the President signed the Economic Stimulus Act of 2008 . Under the legislation, approximately 2.5 million Marylanders will receive tax rebates of up to $600 per person ($1,200 per couple), plus $300 per child, as early as mid-May, 2008. By putting money into the hands of America's families and small businesses, the plan is expected to stimulate the economy and create 500,000 jobs.

The IRS has created a Economic Stimulus Payments Information Center for taxpayers with Frequently Asked Questions to help you determine how the stimulus impacts you.
